Neighborhood Advisory – 24-Hour Work Notice

November 1, 2018

Beginning Sunday, Nov. 4 through Wednesday, Nov. 14, construction crews will be conducting 24-hour work, including night work, along the San Diego County Water Authority’s Pipeline 5.

Purpose of the work

As construction activities related to the pipeline relining project begin, crews will be dewatering the aqueduct system and installing isolation bulkheads. Crews will lower materials into the pipe with a crane, then all work will occur underground, inside the pipeline. Any lighting used for nighttime work will be directed away from residences and any noise created will be kept to a minimum. After this work is complete, crews will return to a daytime work schedule.

This work WILL NOT affect delivery of water to your home. The Water Authority thanks you for your patience during this work to upgrade the aqueduct system that provides water to San Diego County.

For more information, please call (877) 682-9283, Ext. 7009, or email CIPinfo@sdcwa.org.

The San Diego County Water Authority sustains a $220 billion regional economy and the quality of life for 3.3 million residents through a multi-decade water supply diversification plan, major infrastructure investments and forward-thinking policies that promote fiscal and environmental responsibility. A public agency created in 1944, the Water Authority delivers wholesale water supplies to 24 retail water providers, including cities, special districts and a military base.
