

RESOLUTION NO. 2017-

RESOLUTION OF THE BOARD OF DIRECTORS OF THE SAN DIEGO COUNTY WATER AUTHORITY FIXING THE TIME AND PLACE FOR A PUBLIC HEARING TO CONSIDER: (1) CHANGES TO THE RATES AND CHARGES FOR DELIVERY AND SUPPLY OF WATER, AND (2) CONTINUING THE EXISTING STANDBY AVAILABILITY CHARGE (3) CHANGES TO THE SYSTEM AND TREATMENT CAPACITY CHARGES.

WHEREAS, pursuant to the County Water Authority Act, the Board of Directors has adopted resolutions and ordinances setting rates and charges for delivery and supply of water, use of facilities and provision of other services; and

WHEREAS, the Director of Finance has provided a report recommending increases of Water Authority rates and charges a copy of which has been filed with the Clerk of the Board; and

WHEREAS, the Board of Directors desires to set a public hearing to consider comments regarding continuing the existing rates and charges

NOW, THEREFORE, IT IS HEREBY RESOLVED by the Board of Directors of the San Diego County Water Authority as follows:

1. The foregoing recitations are true and correct.
2. A public hearing will be held by the Board of Directors of the San Diego County Water Authority Administrative and Finance Committee on June 22, 2017, at 9:00 a.m., or as soon thereafter as the matter may be heard, in the Board Room of the Water Authority at 4677 Overland Avenue, San Diego, California 92123, to consider changes to the rates and charges for delivery and supply of water, use of facilities, and provision of other services as determined necessary by the Director of Finance
3. The Clerk of the Board is directed to cause the following notice to be published pursuant to Government Code Section 6066 in the newspapers of general circulation stated in paragraph 5, below:

Legal Notice

Notice is hereby given that the San Diego County Water Authority Board of Directors Administrative and Finance Committee will hold a public hearing at June 22, 2017, at 9:00 a.m. or as soon thereafter as may practicably be heard, at its offices located at 4677 Overland Avenue, San Diego, CA 92123. The purpose of the hearing is to hear objections, protests or comments from the public about proposed and recommended water rates and charges as specified below. The Water Authority also intends to continue the water standby availability charge at it existing level, and to levy property taxes as authorized by law. For further details see the memorandum dated May 17, 2017 on file with the Clerk of the Board.

The following rates and charges will be effective July 1, 2017:

Standby Availability Charge. The County Water Authority Act limits the maximum annual Standby Availability Charge to \$10 per acre or parcel, whichever is greater. Beginning before November 6, 1996, the Water Authority has determined that the maximum annual standby availability charge should be levied on property within the Water Authority's service area. To provide necessary funding for the CIP, the General Manager recommends that the charge continue at the \$10 maximum for fiscal year 2017-2018. The Standby Availability Charge rate is effective July 1, 2017. The amount of this charge has not changed since the adoption of Proposition 218 in 1996. The justification for imposition of this charge is the same as for when the charge was initially levied and as it was imposed before November 6, 1996.

Annexation Application Fee. The Annexation Application Fee recovers the full administrative cost of service associated with an application for annexation, to recover the costs incurred throughout the annexation process. The Annexation Processing Fee has not been adjusted since 1983. The Water Authority retained Carollo to conduct a 2017 review and update of the Water Authority's Annexation Fee. The updated Annexation Processing Fee of \$10,340 per application will go in effect July 1, 2017.

The following rates and charges are being proposed effective on January 1, 2018:

Melded Untreated Supply Rate. The Melded Untreated Supply Rate will be set to recover the costs of purchasing Tier 1 water from MWD, water purchases from IID, payments in connection with the All-American and Coachella Canal lining projects, payments to MWD under the 2003 Exchange Agreement for conveyance of IID and Canal Lining water, and may include other costs specifically associated with the acquisition of the IID supply source, cost recovery for supply costs previously incurred but not charged, costs for acquisition of desalinated water pursuant to a water purchase agreement, and other supply costs. For CY 2018, the Melded Supply Rate may increase from its current level of \$855/AF to \$894/AF.

Melded Treatment Rate. The Melded Treatment Rate will be set to recover the costs of treating water for the Water Authority and may include costs of purchasing treated water from MWD, and the Levy and Olivenhain treatment plants and may recover certain other costs associated with the delivery of treated water, including certain costs of desalinated water. For CY 2018, the Melded Treatment Rate may increase from its current level of \$290/AF to \$300/AF.

Transportation Rate. The Transportation Rate is a uniform rate set to recover capital, operating and maintenance costs of the Water Authority's aqueduct system including all facilities used to physically transport the water to member agency meters. The Transportation Rate is charged to each acre-foot of water delivered by the Water Authority as it occurs. For CY 2018, the Transportation Rate may increase from its current level of \$110/AF to \$115/AF.

Transitional Special Agricultural Water Program Rates (TSAWR). The untreated TSAWR may increase from its current level of \$666/AF to \$695/AF in CY 2018. The treated TSAWR may increase from \$956/AF in CY 2015 to \$995/AF in CY 2018.

Infrastructure Access Charge. The infrastructure access charge is imposed on member agencies as a condition of maintaining connections to Water Authority facilities. It is apportioned based on retail water meters within each agency. For CY 2018, the infrastructure access charge may increase from its current level of \$2.87/ME to \$3.01/ME. ME means meter equivalent as defined in the resolution establishing the Infrastructure Access Charge.

Customer Service Charge. The Customer Service Charge is set to recover costs that are necessary to support the functioning of the Water Authority, to develop policies and implement programs that benefit the region as a whole. The Customer Service Charge will be allocated among the member agencies on the basis of each agency's three-year rolling average of member agency purchases from the Water Authority (excludes member agency wheeled water). For CY 2018, the Customer Service Charge is recommended to remain at its current level of \$26.4M.

Storage Charge. The Storage Charge is set to recover costs associated with the Emergency Storage Program. The Storage Charge is based on all non-agricultural water deliveries and will be allocated among the member agencies using a pro rata share of each agency's three-year rolling average deliveries (including all users, member agencies and third-party wheeling throughput). For CY 2018, the Storage Charge will remain constant at its CY 2017 level of \$65.0M.

Supply Reliability Charge. The Supply Reliability Charge (SRC) is a fixed charge established in 2016 to recover a portion of the costs associated with the Water Authority's highly reliable water supplies, which includes desalinated water and IID transfer water. The charge is allocated to member agencies based upon their pro rata share of the Water Authority's 5-year rolling M&I deliveries (agricultural deliveries are not included). For CY 2018, the SRC may increase from its current level of \$24.8M to \$28.6M.

System Capacity Charge. This charge recovers a portion of the capital costs for the conveyance and storage facilities necessary to operate the delivery system. The current charge of \$5,029/ME for each new meter equivalent will be administratively adjusted to \$5,099/ME. The adjustment will be effective January 1, 2018.

Water Treatment Capacity Charge. This charge recovers a portion of the regional water treatment facility to be collected from all future users of the facility. In keeping with the Water Authority's policy of exempting agencies that cannot benefit from a service, the Water Treatment Capacity Charge excludes customers from the City of Escondido, City of Del Mar, and City of Poway. The current charge of \$128/ME for each new meter equivalent will be administratively adjusted to \$141/ME. The adjustment will be effective January 1, 2018.

The following MWD rates and charges are passed on directly or allocated to the member agencies as follows;

MWD Capacity Charge. For CY 2018, the Capacity Charge is \$8,700 per cubic foot second (cfs) of maximum daily flow requested by a MWD member agency. The Capacity Charge is a fixed charge levied on an agency's maximum daily flows over the three previous fiscal years. It recovers the cost of providing peak capacity within the distribution system, and is designed to encourage member agencies to shift demands and avoid placing large daily peaks on the MWD system during the summer months. Daily flow measured between May 1 and September 30 for purposes of billing the Capacity Charge will include deliveries (except long-term seasonal storage deliveries) made by MWD to a member agency or member agency customer including water transfers, exchanges and agricultural deliveries. As part of a separate surface storage operating agreement to manage seasonal peaking, the Water Authority is expected to reserve its full available capacity. The Capacity Charge will be set at \$9,902,340. The Water Authority's Board has directed that the Capacity Charge will be recovered proportionally based on a five-year rolling average of member agency flows during coincident peak weeks.

Readiness-to-Serve Charge. MWD's Readiness-to-Serve Charge differs from the other MWD charges in that it is set on a Fiscal Year basis. The total Readiness-to-Serve Charge will increase from its current level of \$135 million to \$137.5 million. The Water Authority's share is set at \$28,956,726 for Fiscal Year 2017-2018. After credits from the MWD Standby Charge, and administrative costs, the net Water Authority share is \$16,291,858. MWD's Readiness-to-Serve Charge will recover costs associated with standby and peak conveyance capacity and system emergency storage capacity. The Readiness-to-Serve Charge will be allocated among MWD member agencies on the basis of each agency's ten-year rolling average of firm demands (including water transfers and exchanges conveyed through system capacity). This allocation will be revised each year. Revenues equal to the amount of MWD Standby Charges will continue to be credited against the member agency's Readiness-to-Serve Charge obligation unless a change is requested by the member agency. The Board has directed that the Water Authority's Readiness-to-Serve Charge will be passed through proportionally to member agencies on the basis of each agency's ten-year rolling average of firm demands (including water transfers and exchanges conveyed through system capacity).

The Water Authority also intends to continue the Water Standby Availability Charge at the existing level, and to levy property taxes as authorized by law.

By Order of the Board of Directors
of the San Diego County Water Authority

Melinda Cogle,
Clerk of the Board
