Construction activities related to the relining project will intensify near you. This work is part of a project that will rehabilitate more than four miles of large-diameter pipeline between Lake Murray and Sweetwater Reservoir. Improvements to existing pipeline access structures will also be part of this project.

Work will take place on Nebo Dr. and will require closing a portion of Nebo Dr. from the I-8 exit to the American Legion parking lot near University Ave. No parking will be allowed on Nebo Dr. until construction is complete. Much of the construction work will be located underground within public street and Water Authority rights-of-way. Visit www.sdcwa.org/LM-Sweetwater-Relining to learn more about the project and to view a map of the Portal 8 work site.

**Schedule and Work Hours:**
**Fall 2017 through Summer 2018**
Monday through Saturday 7 a.m. to 7 p.m.
Some nighttime work may occur to install traffic detours and to repave roadways.

**SEE OTHER SIDE FOR MORE INFORMATION**
CONSTRUCTION NOTICE

PROJECT BENEFITS:
• Extends pipeline's service life
• Ensures water system reliability
• Less impactful to community and environment
• Costs less than other repair methods
