

## **Neighborhood Advisory: 24-hour work notice**

**December 2, 2019**

Beginning Sunday, December 8 through Thursday, December 19, construction crews will conduct 24-hour work, including night work, along the Water Authority's First Aqueduct Rehabilitation Project.

### **Purpose of the work**

As part of construction activities related to this project, crews will dewater the aqueduct system and install isolation bulkheads. Crews will use a crane to lift and lower materials, however, most of the work will occur underground, inside the pipeline. Lighting used for nighttime work will be directed away from residences, and any nighttime noise will be minimized as much as possible. After this work is complete, crews will return to a daytime work schedule.

**This work WILL NOT affect delivery of water to your home.** Thank you for your patience during this work to upgrade the aqueduct system that provides water to San Diego County.
