CHAIR’S REPORT

Chair McMillan reported that the Department of Water Resources announced the initial allocation for water delivery at 25 percent of the State Water Project Contractors’ requested amounts in calendar year 2011. He discussed QSA JPA mitigation funding and work, and the Water Authority’s participation in the All American Canal Safety Awareness Consortium. Chair McMillan acknowledged the Vice Chairs, Committee members, and staff for their participation and assistance during his two-year term as Chair.

4-A Director’s comments.

Director Tu thanked Director McMillan for his leadership of the committee, and Director Knutson stated that the committee had improved the communication of issues to the board in terms of cost and the effect on rates.

4-B Final report on Imported Water Committee’s Goals for 2009 and 2010.

I. CONSENT CALENDAR

There were no items on the consent calendar.
II. ACTION/DISCUSSION
   1. MWD Issues and Activities update.
      1-A Metropolitan Water District’s Delegates report.

      The delegates reported on discussions and actions taken at the recent MWD board
      meetings.

   2. Colorado River Programs.
      2-A Colorado River Board representative’s report.

      Director Knutson stated that Lake Mead’s elevation was nearing the level that would
      trigger shortages on the Colorado River. He said that many agencies were concerned that
      reservoir operating guidelines for shortage sharing would take effect, but California would not
      take shortages and would continue to receive its 4.4 maf allotment.

      Ms. Razak discussed the coordinated operations for Lakes Powell and Mead based on
      elevations and conditions of both reservoirs to help prevent shortages from occurring in the
      Lower Basin while minimizing the need to curtail water deliveries in the Upper Basin. She
      stated that Lake Mead’s elevation was at 1,082, only seven feet from the first shortage trigger
      that would reduce water deliveries from the reservoir. If Lake Mead’s elevation drops to 1075,
      Arizona and Nevada would take shortages, but California would not take shortages under any
      condition. Following her presentation directors asked questions and made comments.
