

ORDINANCE NO. 2000-3

ORDINANCE OF SAN DIEGO COUNTY WATER  
AUTHORITY TO AMEND ORDINANCE NO. 97-1 FIXING  
CAPACITY CHARGES ON ULTIMATE USERS OF WATER  
FROM THE SAN DIEGO COUNTY WATER AUTHORITY

WHEREAS, pursuant to Section 5.9 of the County Water Authority Act, the San Diego County Water Authority ("Authority") may fix and impose capacity charges upon the ultimate users of water delivered by the Authority to its member agencies and to require its member agencies to collect the charges on behalf of the Authority; and

WHEREAS, the Authority revised the capacity charge imposed on ultimate users of water by adoption of Ordinance No. 97-1, dated May 15, 1997; and

WHEREAS, the Long Range Financing Plan adopted by the Board of Directors contemplates the establishment of sufficient rates and charges, when considered along with taxes and other revenues of the Authority, to provide revenues for accomplishment of the Authority's purposes and programs as determined by the Board of Directors; and

WHEREAS, the Authority has prepared, considered, and approved an analysis and study regarding proposed revised capacity charges, based upon an undated calculation based upon the methodology used in the analysis entitled "San Diego County Water Authority Revised Capacity Charge Methodology," ("Capacity Charge Study") dated May 17, 1999, and

WHEREAS, the Authority, by adoption of Ordinance No. 99-2, dated July 22, 1999, amended Sections 2 and 10 of Ordinance 97-1 to adjust the Capacity Charge in accordance with the methodology of the Capacity Charge Study, and

WHEREAS, the Authority has updated the data used in the calculation of the charge pursuant to the Capacity Charge Study. The Capacity Charge Study, with current data, justifies a capacity charge of \$2,004 for new meters of a size less than one inch and a capacity charge for new meters of a size one inch or larger based upon the amount of \$2,004 multiplied by a factor that is based upon additional meter capacity; and

WHEREAS, on September 28, 2000, the Board adopted Resolution No. 2000-22 setting the time and place of a public hearing by the Fiscal Policy Committee regarding the Capacity Charge Study and the proposed capacity charge increase.

WHEREAS, pursuant to Resolution No. 2000-22 a duly noticed public hearing was held by the Fiscal Policy Committee which, in consideration of the Capacity Charge Study,

Study, the Authority's capital and operations budgets for Fiscal Year 2000-2001, the Authority's rate and revenue structures and projections, the Long Range Financing Plan, and the testimony presented during the public hearing thereafter recommended increasing the capacity charge for meters with a size less than one inch to \$2,004, and a corresponding increase for larger meters; and

WHEREAS, the Board has considered the recommendation of the Fiscal Policy Committee and is fully informed: and

WHEREAS, it is in the interests of the Authority, its member agencies, its water users and taxpayers, that the Authority take final action to adopt revised capacity charges on new water users as recommended by the Capacity Charge Study in order to provide funds to pay a portion of the costs of new capital facilities needed to serve such users; and

WHEREAS, the proposed capacity charges are nondiscriminatory and will not exceed the estimated reasonable amount required to provide the services for which the charges are to be levied; and

WHEREAS, at least fifteen (15) days prior to the meeting at which the capacity charges were levied, the Authority made available to the public data indicating the amount of cost, or estimated cost, required to provide the services for which the charges are to be levied and the revenue sources anticipated to provide such services, including general fund revenues; and

WHEREAS, the Authority has determined that imposition of the revised capacity charge recommended by the Capacity Charge Study is exempt from CEQA under Section 15378(b)(5) of the State CEQA Guidelines regarding the creation of government funding mechanisms that do not involve any commitment to any specific project that may have potentially significant physical impacts on the environment. Any project funded by this charge either has or will have appropriate CEQA documentation completed prior to any activities that could result in physical impacts on the environment;

NOW, THEREFORE, the Board of Directors of the San Diego County Water Authority does ordain as follows:

Section 1. Findings. The foregoing recitals are true and correct and constitute legislative findings of this Board.
