- **24-hour work (Shutdown 5):** July 22-28, 2012
- **Construction ends:** Late 2012

*All dates, except for shutdowns, are approximate and subject to change.*
Dear Project Neighbor,

This notice is to inform you about the final upcoming shutdown that will involve 24-hour activities. This shutdown is related to the Water Authority’s relining project near your home.

You may see lights and hear construction vehicles and some workers above-ground as they enter and exit the shutdown and portal areas near Miramar Hill, Miramar Reservoir, and Scripps Lake Drive. Additionally, ventilation fans will operate around the clock while workers are in the pipes underground.

What: 24-hour construction activities (mostly underground, within the pipe)

When: July 22-28, 2012

Why: To inspect and redirect flows of water in the Water Authority’s pipelines so the relining contractor may resume relining sections of existing pipe.

This work will NOT affect delivery of water to your home.
