Nob Hill Pipeline Improvements Project

January 2017

From January 8-17, 2017, the Water Authority will be conducting 24-hour work to remove bulkheads and connect the new pipeline with the existing pipelines. This will require crews to work in the project areas in Nob Hill as well as on the west side of Interstate 15, near Spitfire Road, and east of Interstate 15, along Scripps Vista Way. There will be some pipeline installation and concrete and pipe demolition. Construction crews will work mostly underground, inside the pipe, with lights and air ventilation units above-ground. Lights and proper ventilation are necessary for worker safety. All lights will be directed toward the work areas to reduce visual impacts to neighbors.

After the shutdown, crews will return to regular work hours (7 a.m. to 7 p.m.) and will begin miscellaneous pipeline work, backfilling portal areas, removal of sound walls, and site restoration. All work is anticipated to be complete in Spring of 2017.

If you have any questions or concerns, please visit the project website at www.sdcwa.org/nob-hill-pipeline-improvements, email OIPinfo@sdcwa.org or call the project info line at (877) 682-9283, Ext. 7003.

The San Diego County Water Authority sustains a $222 billion regional economy and the quality of life for 3.3 million residents through a multi-decade water supply diversification plan, major infrastructure investments and forward-thinking policies that promote fiscal and environmental responsibility. A public agency created in 1944, the Water Authority delivers wholesale water supplies to 24 retail water providers, including cities, special districts and a military base.

This work will not affect delivery of water to your home.
