# WaterSmart Landscape MAKEOVER SERIES

## Course Goals Review

Learn the knowledge and skills necessary to convert a high-water-use turf area into a beautiful, WaterSmart landscape, including how to:

1. Identify Your Landscape Target
2. Create a Basic Plot Plan
3. Evaluate Your Site
4. Design Your WaterSmart Landscape
5. Implement Your Plan
6. Care for Your WaterSmart Landscape

## Prepare for Design Coaching

### **Bring the Following Materials:**

- ✓ L-1 with notes for reference
- ✓ L-2 with drainage notes
- ✓ L-3 with your existing planting plan work
- ✓ L-4 with your existing irrigation notes
- ✓ Photos of your space and other inspiring photos
- ✓ Highlighted design questionnaire
- ✓ Bubble diagrams
- ✓ Hardscape plan
- ✓ Plant list
- ✓ Irrigation evaluation
- ✓ Program evaluation sheet from notebook
